

SUPERVISION™

The Most Intelligent Crawler Ever is Also The Most Powerful.

Features & Benefits:

- Kevlar-reinforced cable weighs 80% less than others types, allowing SuperVision to travel much further into a pipe.
- Zoom camera head with high-powered lamp array further extends effective inspection distance.
- Onboard intelligence speeds diagnosis and supports virtually any combination of auxiliary sensors and end effectors.

Portable Control Pendant With Integral 3" TFT Color LCD

Portable CCU with Monochrome Diagnostics Display

- Fully automatic reel pays out and retracts cable, preventing crawler tangles and jams.
- Interchangeable wheels, lamps and cameras adapt crawler to any size pipe.
- Adjustable-height camera (SV250) rises above debris and water, centering view in pipe.

Rear-Viewing Camera for SV250 Crawler

1650' (500m) Auto Cable Drum Controls

Configuration Possibilities:

Stainless Head for Harsh Environments
