

### SILENT AND ENVIRONMENTALLY FRIENDLY CUTTING EDGE TECHNOLOGY

## *MINENGO*

The Minengo Edger was developed for Operators that require the very best results from their ice maintenance equipment.

This silent, user-friendly powerhouse has zero environmental impact while removing the ice buildup around the boards. The Minengo Edger is equipped with a height-adjustable handle and board guide, a powerful 24V 2.0 KW 3200 RPM electric motor, an electromagnetic brake for immediate stop of the cutters. Two large wheels on the back, and two small wheels on the front, make for easy transportation and handling on non-ice surfaces.

## ADVANTAGES

- 1 Handle mounted cutting control
- 2 Preset cutting platform
- 3 8 Billet steel long lasting cutters
- 4 Ability to edge multiple rinks on a single charge
- 5 Light weight wander free operation

### FEATURES

- Additional safety guard surrounds cutting disk
- Ability to cut flat or on an angle with the ice surface
- 8 easy to replace long lasting cutters
- Smart charging system
- Large rear wheels and smaller front wheels for easy off ice transport
- Ultra quiet wander free operation
- 12V maintenance free batteries mounted over wheels for Ideal weight distribution
- Powerful 24V 2.0 kW 3200 RPM electric motor
- Cutting width of 14" 356mm
- Snow is always directed toward center of ice, away from the boards and operator
- Fully adjustable board guide to help eliminate chipping
- Hot dipped galvanized steel body with stainless steel parts for corrosion protection
- Weight: 250lbs 113kg
- 1 year warranty
